## REFERENCE

Since 2009 I have had cooperation with Mariusz Polit concerning smaller and bigger maintenance and rebuilding activities at different sites.

- 1) Rebuilding of an apartment 75 m<sup>2</sup>, including the construction of an acoustic and fire proof membrane of the ceiling. This work included also adjustment of the electrical installation including lightning.
- 2) Complete refurbishment of bathroom, tiles on the floor and walls. Further installation of shower and furniture.
- 3) Repainting the living room, kitchen and sleeping room including installation of spotlights. In entrance installation of electric heating system in the floor, tiles on the top.
- 4) Construction of a summerhouse, 20m<sup>2</sup>, including the fundmentation, building of the walls and the construction of a self-supporting roof construction.

Mariusz has a wide knowledge and experience in construction and rehabilitation work. He is creative and is searching the most practical and efficient solutions.

Mariusz has always done a very good job for me.
